

BB Brute Cream Cleanser Cleans, polishes, brightens and protects hard surfaces.

Powerful: Special volcanic pumice scrubbers cut through grease, grime, and residues—even mild rust stains—without scratching. Contains no bleach, but it brightens surfaces so well, you'll think it does!

Versatile: Effective on any hard surface, including chrome, stainless steel and brass.

Saves Money: Thick formula clings to vertical surfaces; doesn't run off and down the drain. No wasted product!

Smells Great: Delivers a pleasant apple scent.

Safe: Non-acid formula. Won't scratch surfaces.

Use On: Ceramic tile, porcelain, enamel, chrome, stainless steel, and brass.
