

NEUTRON
CLEAN SMARTER. SMELL BETTER.

D-Molish

**Enzymatic Cleaner, Stain
Digester, and Odor Eliminator**

Spring Fresh

Saturate areas on carpet, tile, grout, cement, equipment, furniture - any surface with an organic stain.

Apply to wet surface or mist with water. D-Molish is activated with water and will continue to work as long as the area remains wet.

Leaves area clean, fresh and stain free.

Net Contents: 1 US Gallon (3.78L)

- Produces trillions of enzymes that digest anything organic (food, urine, vomit) eliminating the stains and odors.
- Use around toilets and urinals to remove urine and other wastes from tile, grout, and cement.
- Maintains free-flowing and fresh-smelling drains.
- Non-acid, non-alkali and non-solvent.
- Does not harm drain and septic systems.
- Lots of other uses. See directions below.

DIRECTIONS FOR USE:

Deodorizing: Test a small, inconspicuous area before using on fabrics to be sure no discoloration will occur. Then spray directly on items to be deodorized. Garbage Cans, Dumpsters: Spray undiluted D-Molish over garbage. Carpeting: Spray a fine mist directly on the carpet to control odor causing pet stains and other soil spots. From separate sprayer, mist water on top of D-Molish to activate. For stubborn problems, cover with moist towel overnight. Odors frequently come from carpet pad. Covering with moist towel permits D-Molish to wick down to problem. Animal Cages: Spray a fine mist, preferably when animals are out of cages. Do not spray directly on animals. Bathrooms: Spray on floor under urinals or toilets to remove urine stains and deodorize. From separate sprayer, mist water on top of D-Molish to activate. Removing Smoke Odor From Fire Damage: Spray undiluted on walls, floors, draperies, porous surfaces, or wherever smoke damage has occurred. Before re-entry, allow the area to dry and ventilate. Drain Maintenance: Treat the lowest levels of the system first to avoid obstruction by matter from upper levels. In systems with a grease trap, treat trap before treating lines entering the trap. If trap is plugged, clean it out before applying D-Molish.

Urinals/Toilet - 8 oz. / 4 in. drain line (2 times per week); Drains - 4 oz. / 2 in. drain line (2 times per week); Drain Fields - 2 oz./ 200 ft. drain pipe (Weekly); Grease Traps - 1 pint to each drain (Weekly); Septic Tanks - 4 oz. / 1000 gal. capacity (Weekly)

FOR INDUSTRIAL AND INSTITUTIONAL USE

WARNING: May be harmful if swallowed. Causes eye irritation. Causes mild skin irritation. 

PREVENTION: Wash hands thoroughly after handling.

RESPONSE: Call a poison center or physician if you feel unwell. If eye irritation persists: Get medical advice. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical attention. If swallowed: Rinse mouth. Do NOT induce vomiting.

STORAGE: Store in dry place. Store locked up.

DISPOSAL: Dispose of container in accordance with all Federal, State and Local Regulations regarding waste disposal.
