

Ecolution Disinfectant Broad Specrum Disinfctant

Versatile & Effective: Ecolution® Disinfectant is a concentrated, hospital grade disinfectant. Its quaternary formula is designed to clean and disinfect a wide variety of hard, non-porous surfaces. Compared to other disinfectants such as bleach, Ecolution Disinfectant is preferred because it is fragrance and dye free, it will not damage surfaces, and it has superior cleaning ability. With over 125 kill claims as listed on the label, it is the ideal disinfectant for virtually any facility.

Where to Use: Hospitals, restaurants, hotels, day cares, nursing home, schools, funeral homes, schools, animal care, prisons ...and more

Directions for Use:

When used as directed Ecolution® Disinfectant can also be used for the following:

- Food-contact and non-food contact surface sanitizing
- Control the growth of mold and mildew on athletic equipment and mats
- Deodorize trash cans and garbage equipment• Deodorize carpets

General Disinfection 2 oz. per gallon of water (708 ppm active solution). Allow surface to remain wet for 10 minutes.

Sanitization Food-Contact Surfaces (glassware, utensils, cookware) ½ oz. per gallon of water (177 ppm active solution). Wash and rinse items then immerse in solution for at least one minute. Let items air-dry. Do not rinse or wipe.
