NI-712®
AutoScents with SE-500®

PRODUCT OVERVIEW :

Metered spray dispensers provide continuous odor control, neutralizing unpleasant odors 24/7. Formulated with a unique odor-neutralizing ingredient, these sprays eliminate odors at their source, rather than simply masking them with fragrance. Each dispenser covers up to 4,000 cubic feet, and each canister delivers up to 3,000 metered sprays for long-lasting effectiveness.

DIRECTIONS FOR USE :

Insert the aerosol refill into the AutoScents® cabinet, following the dispenser's instructions. For optimal results, set the AutoScents™ unit to spray every 15 minutes. One refill effectively controls odors and creates a pleasant environment in spaces up to 4,000 cubic feet. Each canister delivers approximately 3,000 metered sprays.
