

ZERO IN™ 797-A Powdered Insecticide

- Long-lasting lethal action. Powder adheres to bug's sticky body. Coated pests transfer the powder to other bugs through close body contact killing them.
- Dual action kill. Powder adheres to the bug's body adsorbing it's waxy coating effectively dehydrating the insect. In addition, natural pyrethrins act as a nerve toxin quickly killing the bugs.
- Six month residual kill as long as the powder stays dry.
- Kills roaches, ants, bedbugs, fleas, lice, ticks, centipedes, ground beetles, scorpions and more. See label for application guidelines.
- Apply everywhere bugs hide. Beneath storage areas, under sinks and behind appliances. Can be used in truck trailers and railroad cars.
- Safe to use around children, pets and plants. Odorless and non-staining.

12 canisters (2.82oz) per case. Item #122928
