

## ZERO IN™ Insect Repellent

### Avoid bites. Help prevent disease.

- Protects against mosquitoes, chiggers, gnats and biting flies.
- Contains 22.56% DEET plus two additional repellents and synergists for long lasting protection.
- Helps prevent disease. Repels mosquitoes that can transmit potentially fatal organisms. Meets CDC and WHO recommendations for avoiding Zika and Chikungunya.
- Spray on clothing and/or skin to effectively repel insect bites. Reapplication and saturation is NOT necessary for effectiveness.

Case of 12 aerosol cans (6.5 oz) #122928

#### HOW TO USE:

To repel the listed insects, apply just enough Zero In Insect Repellent to cover exposed skin and/or clothing. Do not use under clothing. Avoid overexposure. Frequent reapplication and saturation is unnecessary for effectiveness. Do not spray in enclosed areas.

To apply to face: spray into hands and rub on. Do not apply to eyes or mouth. Do not spray directly on face. Do not apply over cuts, wounds or irritated skin. Repeat as needed.

For ticks and chiggers: also apply repellent to shoe tops, socks and around openings in clothing. After returning indoors, wash treated skin with soap and water. Wash treated clothing.
