

Ultra low-splash NeuGuard Urinal Mats

New design minimizes splash even better!

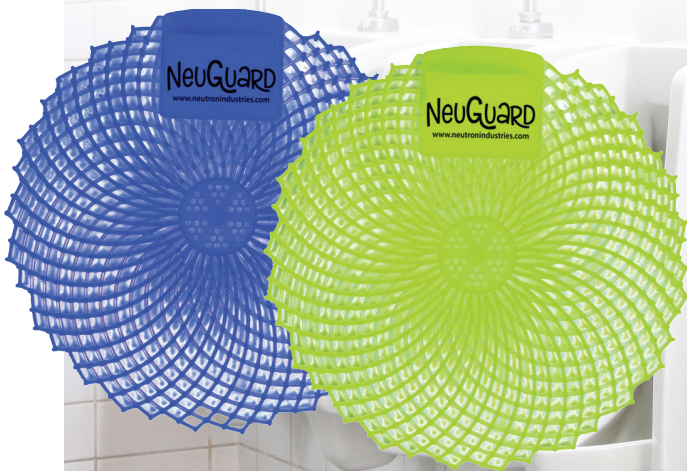

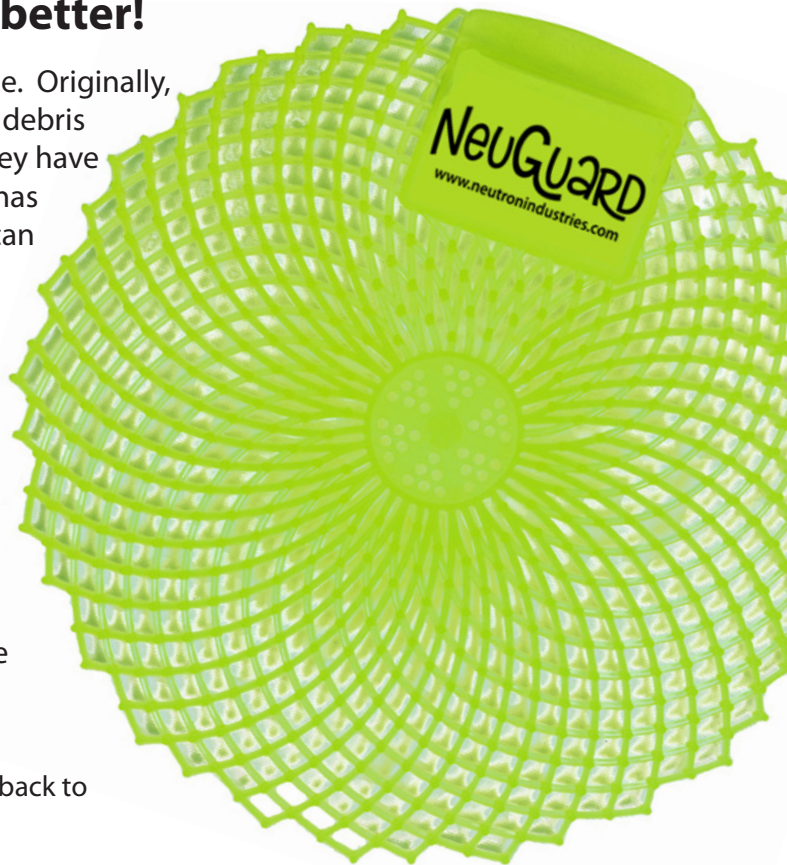

Urinal mats and screens have been around for a long time. Originally, their sole purpose was to keep cigarette butts and other debris from clogging drains, but like most things in our lives, they have evolved. No longer just a flat piece of plastic, the shape has evolved to reduce the embarrassing splash-back which can occur during use.

These mats feature a thicker pad with splash preventing prongs strategically placed in a swirl pattern.

The mats guard against clogged urinal drains by preventing foreign objects such as cigarette butts, gum and chewing tobacco from clogging the urinal drain.

NeuGuard Urinal Mats offer a concentrated fragrance providing consistent odor control for 30 days. Use in conjunction with NeuGuard Fragrance Clips for complete restroom odor control.

- Full ½" thick.
- Vertical spikes break up liquid streams reducing splash back to almost none.
- Both the patron and your facility remain clean and dry.
- Loaded with scent to eliminate unpleasant odors.
- Swirly design prevents debris from entering drains without obstructing fluid flow.

Choice of 2 scents. Screens measure 7" x 7".

Packed 12 screens per carton.

Botanical Bliss (neon green) Touches of citrus combined with green tea and jasmine plus earthy undertones. #128361

Mountain Lodge (royal blue) Zesty cool air of a midnight mountain hike. #128359
