and Polishes

Knock Out

Removes crud, filth and graffiti like no other!

Powerful: Penetrates thick, caked-on layers of greasy grime and leaves surfaces brilliant. Works on vinyl, linoleum, ceramic tile, stainless steel, fiberglass, metals and aluminum.

Versatile: Eats floor dirt and grime under vending machines; removes tar, grease and bugs from car bumpers; removes hard water deposits from showers and sinks; de-soots fireplace walls and chimneys; removes Betadine® stains from linens, floors, carpets and equipment.

Saves Money: Thick foam clings to vertical surfaces for extended cleaning power — no need to keep applying product to follow what has “dribbled” down without cleaning the soiled surface.

Saves Time: Easy application — just spray, wait a few minutes, and wipe.

Use On: Floors, car and truck bumpers, shower stalls and sinks, fireplace walls and chimneys, whitewall tires, under appliances and vending machines.

Units: Case of 12 Aerosol Cans (19-oz): #121710-12

Customer Testimonial: *I was really impressed with (Knock Out). I had graffiti that had been on the stucco walls for months. I sprayed (Knock Out) on it and left it for five minutes — and it was gone! I didn't even have to use a brush on it. I can't begin to name the other things we've used it on. It gets rid of any kind of crud or graffiti you can imagine.*

Carl Wilder — San Diego, CA

Liberal Housing Authority has 99 low-rent apartments which all have tile floors. We have had an ongoing problem with stains, yellow wax build-up and general crud under appliances when we experience turn-arounds. We ordered a case of your (Knock Out) with skepticism. My maintenance personnel immediately fell in love with it. They were able to spray (Knock Out) on even the worst build-up and remove crud without any problem at all. This meant lots less time spent on hands and knees — a real time and money saver.
