

## EPA Registered Disinfectant on List N

### SURFACE DEFENSE DISINFECTING SPRAY

Use to disinfect hard surfaces and sanitize soft surfaces!

- Surface Defense Disinfecting Spray is an effective phenol based disinfectant/deodorant that is virucidal, tuberculocidal, fungicidal and bactericidal.
- Kills a broad range of pathogens including Influenza A2, HIV-1, Herpes Simplex 1 & 2 . . . even tough TB germs.
- Sanitizes soft surfaces. Controls Staphylococcus aureus and Klebsiella pneumoniae on porous fabric and leather surfaces.
- Controls microorganisms that create foul, putrid odors. Provides pleasant orange scent for effective deodorizing.
- Ready-to-use. Just spray surfaces, walk away and let Surface Defense Disinfecting Spray work for 10 minutes (required for total disinfection). No need to rinse.

EPA registration No - 44446-67-42666  
12 cans (16.5oz) per case Item #128422

*Surface Defense Disinfecting Spray (registration #44446-67) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Surface Defense Disinfecting Spray can be used against SARS-CoV-2 (COVID-19) when used in accordance with the directions for use against Adenovirus Type 5 on hard, non-porous surfaces. Please refer to the CDC at [www.cdc.gov/](http://www.cdc.gov/) for more information.*

- Do NOT use around cats!

#### Use to sanitize soft surfaces including:

- Sofas and chairs
- Carpets and rugs
- Curtains and draperies
- Leather and rubber surfaces
- Shoes
- Athletic mats & athletic equipment

*Surface Defense Disinfecting Spray is an effective Virucide, Bactericide, Tuberculocide, and Fungicide on hard nonporous surfaces when used as a disinfectant. This convenient hospital-use and broad-spectrum disinfectant and antimicrobial agent disinfects and deodorizes surfaces after a 10 minute exposure time. This product has demonstrated effectiveness on precleaned hard nonporous surfaces against the following microorganisms:*

**BACTERICIDAL:** *Mycobacterium tuberculosis, Staphylococcus aureus, Salmonella enterica, Pseudomonas aeruginosa, and Methicillin-Resistant Staphylococcus Aureus (MRSA).*

**VIRUCIDAL:** *HIV-1 (AIDS Virus), Herpes Simplex Virus (Type 2), A2 Influenza (Hong Kong), Avian Influenza A virus (H5N1), and other viruses on hard, nonporous, inanimate surfaces. Kills Pandemic 2009 H1N1 Influenza A (formerly called swine flu).*

**FUNGICIDAL:** *Trichophyton mentagrophytes pathogenic fungi: Surface Defense Disinfecting Spray can be used to clean and disinfect floors, benches, and other hard, nonporous surfaces commonly found in bathrooms, shower rooms, and locker rooms.*
