

ZERO IN™ SOK

Flying and crawling insect killer.

- Broad-spectrum pest control. Effective against flying and crawling pests. Can also be used on ornamental plants.
- Formulated with a Pyrethroid insecticide to provide maximum control and a fast, on-contact kill. Zero In SOK's flushing effect drives insects away and keeps them away.
- Use to control pests indoors and outdoors.

Directions to use. Shake. Aim. Spray.

HOUSEFLIES, FRUIT FLIES, MOSQUITOES, GNATS, BLACK FLIES, SKIPPER FLIES, BLOW FLIES AND SMALL FLYING MOTHS: Close all doors and windows and spray room at the rate of 2 to 3 seconds per 1000 cubic feet. Direct spray to all parts of the room, especially windows and other light sources which attract these insects. Keep nozzle in constant motion. Upon reentry, open windows and ventilate for at least 2 hours. Repeat treatment once a month.

COCKROACHES, WATERBUGS, PALMETTO BUGS, SILVERFISH, FIREBRATS, CRICKETS, SCORPIONS, SPIDERS, MILLIPEDES, CENTIPEDES, SOWBUGS AND PILLBUGS: Spray into hiding places such as cracks and crevices, behind sinks, cabinets, along baseboards and floors, around drains and plumbing, hitting insects with spray when ever possible. Upon reentry, open windows and ventilate for at least 2 hours. Repeat treatment once a month.

ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat treatment once a month.

BEDBUGS: Spray mattresses, particularly around tufts and seams. Take beds apart and spray into all joints. Treat baseboards, moldings and floors. Allow all sprayed articles to dry thoroughly before reuse. After mattress is dry cover with mattress cover and sheet. Do not use mattress without cover. Repeat treatment once a month.

FLEAS AND TICKS (ADULTS AND LARVAE): Remove and thoroughly clean or destroy pet bedding. Spray pet sleeping quarters, bed, entire floor and floor covering, with special attention to cracks and crevices around baseboards, and window and door frames. Infested upholstered furniture may also be treated with this product. A test application should be made to upholstery or drapery fabrics in an inconspicuous place before use.

TO CONTROL FLEAS AND TICKS ON DOGS. Starting at the tail, stroke against the lay of the hair, spraying the parted fur in short bursts, directly behind the hand to insure penetrating the coat. Dampen the fur up to the head. Repeat application every two weeks if necessary.

FOR THE CONTROL OF GARDEN INSECTS: For use on roses, dahlias, asters and other ornamentals to kill japanese beetles hit by spray, as well as whiteflies, aphids, exposed thrips, spiders, red mites and leafminers. May be used on plants, as well as a multi-purpose spray in small gardens and for spot treatments of incipient insect infestations to prevent spreading in large garden areas. Effective when used as directed against whiteflies, aphids, spider and red mites, exposed yhrrips, lady bugs, japanese beetles, pavement ants, clover mites and army worms. When spraying plants, do not operate closer than 18 inches. Use sweeping motion. Spray in one second bursts. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90°F. Contact insects directly whenever possible. Repeat treatment as infestations occur. Use with caution on on the foliage of Flowering Quince, Juniper, Cypress, Mulberry, Ash, Coloneaster, Rose, Camellia, Azalea, Pyracantha & Caenothus, as certain varieties have shown some leaf browning.

Case of 12 aerosol cans (16 oz) #125360-12
