

## *EPA Registered for use against COVID-19*

### TRIPLE THREAT DEFENSE Disinfectant-Cleaner

Preventive cleaning and disinfecting of frequently touched hard surfaces is important when combating the spread of coronaviruses like COVID-19.

- EPA List N: For use against Novel Coronavirus SARS-COV-2, the cause of COVID-19
- Two-minute dwell time
- Ready-to-use

Triple Threat Defense helps stop the spread of contamination, contagious germs and microorganisms. Contains biodegradable surfactants, wetting agents and powerful sequestering agents to provide maximum cleaning power. Triple Threat Defense cleans, disinfects and deodorizes.

Under the EPA Emerging Pathogen Policy, Triple Threat Defense can be used for:

- Hard surface disinfecting (door handles, counters, etc.)
- Floor cleaning
- Food processing surfaces
- Animal quarters and kennels
- Fogging machines (must use respirator)
- AC coils and pTAC units

See label for details on pathogens and contact time requirements.

Triple Threat Defense Fresh  
12 quarts per case - #128371

Triple Threat Defense Lavender  
12 quarts per case - #128367

#### TECHNICAL DATA

**REGISTRATIONS:** EPA Registration Number 1839-83-42666

**APPEARANCE:** Clear, pale yellow liquid

**SCENTS:** Fresh, Lavender

**pH:** 11.7

**DISINFECTANT TYPE:** Quaternary Ammonium Compound

**ACTIVE INGREDIENTS:** n-Alkyl (60%C14, 30%C16, 5%C12, 5%C18) dimethyl benzyl ammonium chlorides — 0.105% nAlkyl (68%C12, 32%C14) dimethyl ethylbenzyl ammonium chlorides — 0.105%

**DILUTION RATIOS:** Ready-to-use
